THESE TERMS & CONDITIONS APPLY IN PREFERENCE TO AND SUPERSEDE ANY TERMS & CONDITIONS REFERRED TO, OFFERED OR RELIED ON BY THE BUYER EXCEPT AND UNLESS STIPULATED IN THE PURCHASE ORDER AND AGREED TO IN WRITING BY RHINO PERIMETER SECURITY LTD.

11 AUTOMATIC BOLLARD INSTALLATION - SOIL & DRAINAGE CONDITIONS

- 11.1 Prior to the installation of automatic bollards, Rhino Security will conduct a basic assessment of the soil type and its permeability to determine the ability of water to drain from the bollard housing. If, during or after installation, it is found that water cannot adequately drain away, additional measures such as the installation of a pump may be required to ensure the proper functioning of the bollards. Any additional equipment or work required to address drainage issues will incur extra costs, which will be communicated to the customer prior to proceeding.
- 11.2 The customer acknowledges and accepts that it is not possible for Rhino Security to conduct a comprehensive drainage assessment prior to the commencement of installation. Accordingly, Rhino Security is not liable for any issues arising from inadequate drainage unless caused by negligence during installation. The customer agrees to bear any additional costs associated with the provision and installation of drainage solutions if required to maintain the operation of the automatic bollards.
